### GAZ'S GUTTER TALK

#### PLYGENE GUTTERLINE V FOLD-OUT SYSTEMS

Fold out systems are steel trays with either PVC or EPDM membranes bonded to them, usually in 2.8 or 3m lengths.

The joints in the membranes are either welded or bonded which causes points of potential failure. As a rigid system, they struggle in gutters that are uneven or inconsistent in profile.

To get over the joint fixings in the gutter, a sole board of 10 - 25mm is installed to give the new gutter system a base to sit on. By allowing the hinge system to "fold out", the upstands of the system must be shorter than the original gutter. Both issues combined reduce the capacity of the gutter by up to 20% and lead to an increased risk of overflowing.

See our battlecard to understand why Plygene Gutterline is superior to a fold-out system.

### SAVE TIME SEALING FIXINGS ON METAL ROOFS

Our new fixing nozzle system enables Seamsil 400 bolt encapsulation system to be efficiently applied to metal roofs. Ensuring a better encapsulation and finish.

- This method is around 3x quicker than brush based methods.
- Each tube contains enough Seamsil 400 to cover 150 fixings.
- Cover up to 50 fixings in 2 minutes.
- Use as a standalone system or with the Delcote® full roof coating system.
- Backed by a 10 or 25 year guarantee when applied as part of the Delcote full roof coating system.
- Or a standalone guarantee of 12 months is applied as the Seamsil 400 bolt encapsulation system.

### THE LATEST SYSTEM UPDATE IN SEAMSIL 100

The market leading cut edge corrosion treatment just got even better, with our Delcote topcoat as part of the Seamsil 100 system.

How does our system update improve Seamsil 100?

- Cost savings of up to 5% per linear metre compared to the previous system
- Less tins needed and less labour intensive as it can be brush or roller applied
- No thinners required for the Delcote topcoat, making it less temperature dependant
- Faster curing
- Higher solids content resulting in lower VOCs
- A wide range of colour options from the full Delcote system

Seamsil 100 still boasts a 15 year product guarantee and is BBA approved, making it the best choice for any job, big or small.
